### WILSON'S PLEA TO UNION HEAD BRINGS RESULTS

Test of Strength. Between Farrington and Lewis Next

**BULLETIN.**  
By Associated Press Leased Wire  
Indianapolis, Ind., July 31.—Striking mine workers in Indiana and Illinois today were ordered back to work by President John L. Lewis of the United Mine Workers of America. In a telegram directed to every local union in the affected districts, he instructed that immediate meetings be called and steps taken to get the men back to work.

**WILL TEST STRENGTH.**  
By Associated Press Leased Wire  
Springfield, Ill., July 31.—Test of strength of State President Frank Farrington against International President John L. Lewis among the striking Illinois coal miners today only awaited President Lewis' mandatory order. President Lewis in Indianapolis last night announced he had issued the order for a return to work. President Farrington today said "there seems to be nothing for me to do. My superior officer has acted."

Operators and miners outside President Farrington's office interpreted his attitude alike. President Lewis will have to appeal to the local unions direct. If this is done, the operators, who all indications among the miners point to a return to work the first of next week.

**Will Win Miners.**  
Division superintendent Mr. White of the Peabody mines, after several days among the striking miners gave this as his opinion also. President Lewis' direct command backed by the appeal of President Wilson, he said will win over the miners. Besides this most miners have been out of work two weeks, and in this strenuous time have run out of credit at the grocery store. Some of them declare they must work.

**Annulling Many Trains.**  
Coal shortage reached new limits. Virtually all the railroad traffic through Springfield is passenger trains, nearly all freight trains, having been annulled. Unless coal comes from some unexpected place tomorrow railroad representatives said some passenger trains will follow the freight to activity.

**Protests Penalty.**  
President Farrington this morning protested against the imposition of the penalty for striking, withheld from the miners' pay. He sent the following telegram to Harry C. Adams, Chicago, president of the Central Illinois Coal Operators' Association, who also is head of the Peabody mine near here.

"A number of companies in this district affiliated with your association have withheld heavy fines from the pay due our members today. An examination of seventh section of the joint state agreement will reveal to you that to do this is a positive violation of said section.

"In addition to this the management at your mine is withholding mining certificates of men who desire to leave employment of your company. I most positively insist that the fines from these men be immediately paid over to them and that you issue immediate instructions to your local management to release mining certificates of men who desire to leave your employ, otherwise we shall feel that you are at liberty to retaliate in whatever way we may find possible."

**LEWIS HAS FULL POWER**  
Indianapolis, Ind., July 31.—John L. Lewis, president of the United Mine Workers of America today probably will direct all striking miners in the Illinois and Indiana coal fields to return to work, in compliance with a telegram sent him last night by President Wilson. After receiving the telegram last night, Mr. Lewis held a conference with several of his associates at national miners' headquarters here at the conclusion of which he issued a statement to the effect that he would immediately order the men in the affected district back to work.

Full authority to deal with the strike situation has been vested in President Lewis by the executive board of the miners which has been in session here for the past week.

### ALLIED MISSION IN CHARGE OF MILITARY AFFAIRS IN POLAND

### Morale of Poles' Army is Stiffened by Support of Entente

Paris, July 31.—(By Associated Press.)—Bolshevik cavalry forces have advanced to the east Prussian frontier, according to a report from the French military mission in Warsaw to the French foreign office. The Bolshevik line extends from Sumalki, 50 miles northwest of Grodno, more than 60 miles to a point also directly north of Warsaw. The Bolsheviks have not actually crossed the borders of Allenstein and Marienwerder, but are fraternizing with the Germans.

The mission says it understands the Germans and Bolsheviks are negotiating at Suwalki. The northern wing of Bolshevik army now is menacing Warsaw directly from the north as well as from the east. The Bolsheviks now are 25 miles southwest of Bialystok.

The allied troops in Allenstein and Marienwerder, which are mostly French, will be held there until the situation clears, although their plebiscite duties have been completed.

**Poles Change Generals.**  
General Romer, commander of the First Polish army which suffered most severely in the vital region northeast of Warsaw, has been relieved by General Joseph Haller. The advancement of General Haller, who commanded the Polish divisions in France and is French trained, is the first step in the reorganization of the Polish army which was begun by the Anglo-Polish mission yesterday. All the important technical services are being taken over by French advisers and large authority have been placed with all the staffs.

On the Galician front a Polish armistice delegates left Warsaw yesterday. They are General Romer, Colonel Solohub, and M. Wroblewski, vice minister of the council.

The mission reports the morale of the Polish army stiffened remarkably during the last week due to the mission's arrival, news of munitions en route and the fact of allied support.

### FEELING AGAINST POLES.

By Associated Press Leased Wire  
Warsaw, July 31.—Reports continue to tell of the ill-feeling against the Poles in Danzig. It recently manifested itself, reports say, when a number of Poles were attacked in the street. Angry crowds searched the railway depot for Poles and several officers escaped only with the help of Americans who loaned them their overcoats.

The tense situation is declared to have been caused by refusal of the dockers to unload a ship of ammunition for Poland, which task was later undertaken by British soldiers.

Robert Anderson will sing The Penitent, by Beardsly Van De Water at the M. E. Church Sunday morning.

### UNLESS THE COAL CARS MOVE FASTER

### COX TO DISCUSS INDUSTRY CRISIS IN HIS ADDRESS

### League of Nations and Domestic Problems Included

By Associated Press Leased Wire  
Dayton, O., July 31.—In addition to the league of Nations the American industrial and other domestic questions are to have a prominent place in the address of Governor Cox accepting the Democratic nomination, according to information here today. It was said that a large portion of the address might be expected to deal with industrial affairs, with a view to bringing capital and labor closer together. Those who have talked with the governor said this is one of his most serious concerns and they believe he would give his views at length.

The governor today bent all efforts toward completing the acceptance address as he had a self-imposed schedule to have the speech printed this afternoon for mailing tonight to the nation's press.

So engrossed was the Governor in completing his address that he offered no comment last night on the statement of Senator Harding his Republican opponent charging that powerful international interests favoring the League of Nations were behind Democratic financing and the Democrats would seek to minimize the league issue.

Governor Cox hopes to obtain considerable rest and recreation next week, to prepare for notification day and the speaking program he expects to launch about the middle of August.

By Associated Press Leased Wire

Among the crew are many who are either Irish or of Irish descent and who claimed that Archbishop Mannix should make the voyage as an honored guest of the Baltic. There is said to be however, an equal number however who expressed the opinion that he should not be allowed to sail on a ship flying the British flag.

Tokio, July 31.—(By Associated Press.)—Outlines of Japan's answer to the note of the United States relative to Japan's intention to occupy Sagini are printed today by the newspapers.

According to their accounts, the answer in pointing out Japan's policy will say that occupation is unavoidable to maintain her national privileges and that the decision to occupy the island will not be changed.

It is reported also that in reply will again emphasize that Japan has no territorial ambitions that the occupation would be only temporary until a stable government was established in Russia.

He regards Mr. Harding as a very superior man.

Miss Clara McKoen, of Chicago, arrived here last evening and will begin her duties as trimmer for Mrs. Woolver during the Fall season.

### HARDING'S FRONT PORCH CAMPAIGN OPENS THIS P. M.

### Mansfield Delegation in Pilgrimage to Candidate's Home

By Associated Press Leased Wire  
Marion, O., July 31.—Senator Harding's front porch campaign began today with a pilgrimage to Marion by a delegation from Mansfield, and the surrounding country in Richland county, Ohio, to pay their respects to the Republican nominee and hear him discuss national issues.

The first of the many groups of voters that are to come here during the summer on similar missions, the delegation marched on the Harding residence with flags and banners flying and with bands sounding.

Most of the visitors accounted themselves almost home folks, for Mansfield is only 40 miles away and many in the throng were personal friends of Senator Harding. Although the principal event of the day's program, Senator Harding's address was to be withheld until late afternoon, the Richland county people began to come in early by train, motor and airplanes.

Forming in marching order near the downtown section of the city the delegation showed off its holiday through the business streets on its way to the senator's home.

After a serenade on the Harding lawn the program included an address of greeting by E. B. Capper, preceding Senator Harding's speech. The candidate had prepared before hand his response, to be delivered from the porch selected as his principal forum in the campaign.

### GIRL WITH HEAD OF CREDIT DIAMOND FIRM WHEN HE DIED IS HELD

### Pretty Hotel Cashier Says Loftis Died After a Friendly Struggle

By Associated Press Leased Wire  
Chicago, July 31.—Miss Ruth Woods, a pretty hotel cashier, who was alone with Samuel T. A. Loftis, head of the diamond firm of Loftis Brothers, when he died suddenly in his luxurious apartment last night today told the police that Loftis crumpled to the floor dead after they had engaged in a "friendly struggle."

Although the police believe that the diamond merchant died from a concussion of the brain caused by a fall, they are not satisfied with the conflicting stories told by Miss Woods, and Roy M. Shayne, son of the late millionaire merchant, who also is being held pending the inquest.

Miss Woods, described Shayne as her fiancée, said she was called by Loftis to his apartment yesterday afternoon, that they danced and drank together, and finally Loftis attempted to attack her.

**In "Playful Struggle."**  
"We were having a playful struggle," Miss Woods declared, "and my attention was momentarily distracted from him. The next instant I was startled by the sound of his body falling to the floor. I was at a loss to know what to do and rushed to the telephone to summon Mr. Shayne."

According to Shayne, he reached the Loftis apartment about 8 o'clock when Loftis opened the door to admit him and suddenly crumpled up on the floor. As soon as Shayne arrived Miss Woods fled from the apartment.

In the meantime Shayne called a physician and when he arrived the body of Loftis was cold indicating that Loftis had been dead for some time. The police are convinced that Loftis died while he and Miss Woods were alone.

**Was "Good Fellow."**  
Loftis gained fame and wealth as the originator of the jewelry mail order business and was widely known as a "good fellow." He started the plan of selling diamonds on the installment plan of \$1 down and \$1 a week.

The diamond merchant's troubles, his quarrels with his brother and his escapes in the night life of Chicago gave him a picturesque career. In 1907 Loftis was shot by his brother-in-law in a quarrel over partnership and two years later expelled from one of Chicago's best known clubs because he slapped his wife's face while on a dance floor. Later they were divorced and Loftis handed her a \$125,000 check and she left for California.

# Today's Market Report

(By Associated Press Leased Wire.)

## Grain Prices Broke Then Rallied Today

Chicago, July 31.—Wheat broke almost 10 cents shortly after the opening today, owing to reported rains in parts of Missouri, Nebraska and Indiana with prospects of more wet weather, which had a depressing influence on grains. There was sufficient buying, however, to check the break and a moderate rally followed. Opening quotations of wheat ranged from 2 1/4 to 4 1/2 lower with December 2.39 to 2.20 and March at 2.31 1/2 to 2.23.

The break in wheat combined with rain reports helped carry corn prices down. Early buying by a leading elevator interest checked the break, however, and a rally followed. Opening prices ranged from 3/4 to 3 1/2 lower with September 1.36 1/2 to 1.37 and December 1.22 to 1.23 1/2.

Oats took the same course as corn. There was a scattered liquidation of the July option. The market opened unchanged to 1 cent down with September 68 1/2 and December 68 1/2 to 68 3/4 cents.

Provisions were weak.

## Weekly Grain Review.

**By Associated Press Leased Wire**  
Chicago, July 31.—Severe slashing of grain and provisions prices this week has resulted to a considerable degree from tight money conditions. Compared with a week ago, wheat quotations this morning were down 25c to 37c a bushel, corn was off 14 1/2 cents to 16 1/2 cents, oats 6 1/2 cents to 13 1/2 cents, and provisions 52 cents to \$1.60.

Disturbing financial and industrial developments notable indications of strain in the automobile business had such a bearish effect on cereals that the week started with an immediate cut of 8 cents in the value of wheat. Next day the wheat market suffered nearly a complete collapse accompanied by evidence of distress selling largely due to heavy margin calls. Then export buying gave temporary relief. Talk of borrowers' difficulties in obtaining money became again a depressing influence and with a setback in foreign exchange did much to bring about a radical falling off in demand. Chief among other bearish factors were reports that contrary to recent widespread belief no great impairment of the spring wheat crop this season would result from black rust.

Despite excessive dry weather in Illinois, Missouri and Iowa, the corn market gave way with wheat though to a less sensational extent. Comparative steadiness of provisions was due mainly to support from packers.

## Brinton in Contest for Nomination for Senatorial Place

Col. W. B. Brinton, Hon. John P. Devine and Attorney Albert H. Eaneken returned home this morning from Springfield where they attended the democratic round-up yesterday. The Dixon delegation is quite prominent in the meeting of the state delegates.

One of those present from Dixon relates their activities during the session at which time Col. Brinton was mentioned as a candidate for United States Senator. The Cook county delegates held out for J. Hamilton

Lewis for candidate for governor and were opposed by down staters. The Chicago delegation won their point and at the call for nominations for each congressional district was named to form the nominating committee.

Attorney Hanneken offered the name of John P. Devine and it was he who offered the name of Col. Brinton for the senatorship honor. Peter A. Waller of Kewanee opposed Col. Brinton and received the nomination by a vote of 8 to 7.

Mrs. LeRoy Buhler of Palmyra was shopping in Dixon today.

W. O. Carson, of South Dixon, had a narrow escape from receiving serious injuries this morning about 8:30 when he was thrown from the seat on a load of oats, his head striking against the curbing and rendering him unconscious for some time. Mr. Carson was driving on Hennegh avenue near Fourth street when one of the wheels on his wagon came off. He was thrown from the seat, his head striking against the curbing and

rendering him unconscious. People residing in the neighborhood went to his assistance but he soon regained his senses and finding that he was not seriously injured, proceeded with his business.

Due to the closing of the coal mines no coal is being delivered to us for fuel which necessitated the shutting down of our distilled water ice plant. Fortunately, we have a supply of natural ice on hand which we purchased last winter in anticipation of an emergency such as exists now. It has been a very expensive proposition for us to hold this natural ice on hand but rather than inconvenience our patrons we felt justified in making this outlay. We shall continue to supply our customers with ice without interruption. Efficient and continuous service being our sole aim.

Natural ice is a great deal harder to handle and cut accurately than distilled water ice and we request you to see that our drivers deliver proper weight for the amount of coupons taken from your book.

To assist us in maintaining efficient service we shall appreciate greatly your advising our office of any complaint you may have.

BLANCHE SWEET, WHO BELIEVES IN FAIRIES

The beauty judges of the Denver Express, decided that Miss Dagmar Jensen was the prettiest salesgirl entered in Denver's Beauty Contest and, after awarding her first prize in the local contest, entered her picture in the great National Salesgirls' Beauty Contest.

A NEW MOVIE STAR

NAMED IN RACE FOR PRESIDENT

This most recent photograph of Blanche Sweet certainly should convince Sir James Barrie that she is among those who would answer with an emphatic "yes" the Scotch dramatist's famous question, "Do you believe in fairies?" Observe the child-like, eager expression, the fascinated inquiring eyes. As a matter of fact, the famous star of motion pictures not only believes in fairies, but has long practiced the art of writing stories about them. Some of these, together with descriptions of child life and character drawn from her own recollections, are announced for publication during the present and next year.

"ALLY" IS THE KIDDIES' SEASIDE FRIEND

WASHINGTON—A stuffed, safe and sane, alligator is one big attraction to the kids at the municipal bathing beach here. All day long "Ally" is beast o' burden to scores of little chaps and their sisters. He hasn't been known to object to the mauling they give him.

WOUNDED YANKS TAUGHT TO PAINT

PELHAM BAY, N. Y.—It wasn't nice to be wounded in the war, but still— Here's a group of wounded soldiers sketching a "mermaid" on the rocks near here. Uncle Sam supplies instructors, models—everything, and then pays the soldiers while they fit themselves for civil life.

RUNS WIRELESS

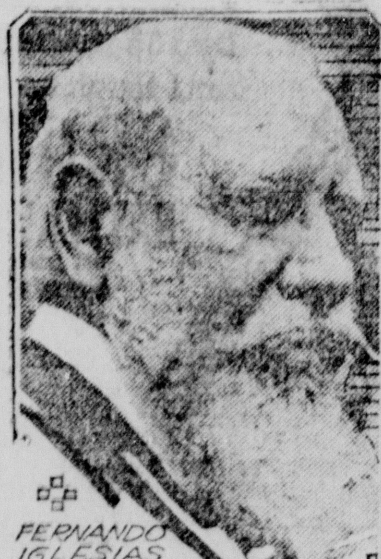

NEW YORK—Miss Elizabeth May Rhodes, of New York City, is the first woman wireless operator, to go to sea in that capacity. She made a trip on the American steamer Apache last August as official wireless operator, and returned to New York recently as a passenger of the S. S. St. Paul. She proudly displayed her discharge papers certifying to her efficiency.

BUSINESS MEN TURN FIREMEN

MEMPHIS, Tenn.—When firemen walked out last week, business men took up the job of protecting Memphis from fire, when, after a long period of agitation, the city's fire fighters offered a blanket resignation. The salaries paid the volunteers are being given to charity. The picture shows the day shift at one station, in command of Ewing C. Crutcher, director of the Chamber of Commerce, and one of the wealthiest citizens. He was a colonel in the Fourth Tennessee Infantry and in command during the race riots at Knoxville last year. State troops have been called to guard against rioting. Organized labor is in sympathy with the underpaid strikers and there has been some talk of a general strike.

AMBASSADOR OF MEX. SACRIFICES BOTH HANDS TO SCIENCE

WASHINGTON—Fernando Iglesias Calderon, new Mexican ambassador to the U. S., has established himself, and his staff, in the Mexican embassy, and is waiting for recognition.

PARIS—The most precious thing in the world—radium—has cost Chas. Infrat, scientist here, his left hand and his right arm and he wants artificial arms now to continue his research. Infrat is head of the nitrate works and his experiments with radium are among the most valuable in science. During the war he devised a "compass" to locate splinters of bullets in the skull and was made a Chevalier of the Legion of Honor. He lost his right arm first and then several fingers of his left hand and finally the whole hand, never hesitating at the sacrifice he was making for science.

# MOTOR NOTES

## MOTORS BRING WELFARE WORK TO FARM REGIONS

The automobile is improving the health, education and recreation of the farmer and his children. This, under the direction of the Red Cross, the Y. M. C. A. and the Y. W. C. A.

The Red Cross has placed 1,000 automobiles in use for rural nursing and home service, and as the work grows this number will be increased. The Y. M. C. A. has 900 country secretaries who are motoring from one rural section to another, bringing lectures, athletic events, motion pictures, entertainment and education to schoolhouses, parish houses and other rural centers. And the Y. W. C. A. is following up this work with aid for the country girl.

Besides looking after the insurance and back-pay rights of the returned soldier, the Red Cross is pushing its work in rural centers so that the farm boy may get the same attention as the man from the city, and that farm life may save the sanitary advantages of the city. For this work, passenger cars are needed, and where they cannot be bought for the welfare worker, they are borrowed.

Working under the belief that the way to keep the farmer from moving to the city is to move the city to the farm, the Y. M. and Y. W. C. A. have been co-operating in bringing all advantages of the city to the country. Nine hundred country Y secretaries are motoring around the country, organizing county recreational movements and other improvements.

In addition to this county recreation work, these organizations are looking after the wounded soldiers in the hos-

## GAS FOR ALL IN MEX. OIL FIELDS

New York, July 31.—Gasoline for every motor car owner in the United States all year round, and then some, is foreseen by William Albert White, inventor of the low pressure oil-feeding system which has been installed in 700 ships, in the Mexican oil fields.

"The present daily potential output of Mexico," says White, "is around 762,000, or 278,160,000 barrels a year, and this out of a very small percentage of the petroliferous area."

Recalling that the annual consumption of gasoline is about 100,000,000 barrels, this estimate sounds reassuring to the motoring public.

Besides, White does not believe that the increase of oil-burning ships will exhaust the supply of petroleum, from which gasoline is obtained, but sees a great future producer in Mexico.

## PERISCOPE TO RESCUE.

Why get out and get under when there's the periscope to do it? It will help you see the places of the engine which you can't see directly and you'll be able to locate those nuts and bolts and other small parts which have a habit of falling into the pan below.

## THROW AWAY YOUR WATER BUCKETS

The latest effort to keep from being drenched while filling the cooling system is the invention for discovery, as you please) of the vacuum water feed system. It's simple. The funnel used here has the power of creating its own

vacuum by which it draws up water from a trough and deposits it through the spout into the radiator. All you need for the apparatus is an elephant behind it. This one is a member of the Sells-Floto circus.

be speeches from well known Dixon orators. A cordial invitation is extended to every one to come and have a most delightful evening. This social is in charge of the Parent-Teachers association in this district. Some of the M. E. church goes, including the Watkins, Edsons and Ross families motored to Red Oak Sunday to view the church which has been remodeled.

## COMPTON.

The beautiful lawn of Mrs. John Bauer living southwest of town was the scene of a family reunion Sunday, July 25th. Those present were Mr. and Mrs. Fred Dethoff, Sr., and granddaughter, Marguerite Bennie. Mr. and Mrs. Fred Dethoff, Jr., of Chicago, Mrs. K. R. Bannan and daughter, Irene, of Mendota, Mr. and Mrs. Martin Bauer and grandchildren, John, Arthur and Clarence. Heath, Mr. and Mrs. J. E. Montavon and two daughters, Ethelene and Hazel, and son, Wyman, Mr. and Mrs. G. T. Bauer, Mr. and Mrs. Adam Mehlbrech, Mr. and Mrs. J. S. Archer and two daughters, Leota and Helen and two sons, Don and Lee, Mr. and Mrs. Harry Bauer and son, Francis, Mr. and Mrs. Levi Mehlbrech, Mrs. Mary Leva, Mr. Wm. and Leve Bauer, all of Compton. A delicious scramble dinner was served at noon and all enjoyed a delightful social time.

Thursday afternoon little Betty Gail Bowman entertained seventeen little tots in honor of her friend, Anna Bernice Cox, of Peoria. At 5 o'clock ice cream and cake was served the company by Mrs. Bowman, assisted by Hazel Montavon.

Mr. and Mrs. Forrest Snyder, who have been visiting relatives here, returned to their home in Chicago on Monday morning.

Mr. and Mrs. J. E. Montavon and two daughters, Ethelene and Hazel were Dixon visitors Tuesday.

Roland Larson, whose present home is in Southern Saskatchewan, is spending a few weeks at the home of his sister, Mrs. Alex Beemer. A complete surprise awaited Mrs. Leola Merriman last Sunday on arriving home from services to find her dining room table spread with a delicious dinner given in honor of her birthday. The principle feature was the usual birthday cake. The tasty dinner furnished and served by Mr. and Mrs. Wilbur Merriman was very much appreciated by his mother. Only the immediate family were present.

Not far from Dennison, Iowa, near the Lincoln Highway, is a small, rough, hilly tract of land that was deeded to Abraham Lincoln for his services in the Blackhawk war. It was the only piece of ground Lincoln ever owned.

## ENGINE CLEANS CAR.

An ingenious way to clean the machine's upholstery is to make use of the compressed air furnished by the engine's operation of the tire pump. It will be found that this is a handy way to get the particles of dirt and dust out of the tufts of the cushions and other inaccessible places.

In Ohio, a motor hearse is a "pleasure" car. So is a privately owned motor ambulance. That's the ruling of the state secretary.

## WHY CARBURETOR LEAKS.

When gasoline is leaking from the carburetor, the float valve mechanism is operating poorly. When the level of gas in the float bowl is at the proper height, the needle valve controlling the flow of the fuel into the carburetor's reservoir should shut off. If it doesn't, the valve and its seat should be examined for dirt and grit. Or, if the needle valve is worn, it should be ground carefully into a good seat.

If in Pennsylvania, beware of the passerby while driving on a muddy road. For if you splash mud on him, you may find yourself in court answering to a charge of assault. A case like this happened in Franklinville recently and the careless driver was fined \$5.

### CAN'T REACH A HAPPY MEDIUM.

Houston.—They just don't seem to be able to strike a happy medium at Highland Park, a principal pleasure ground here. First the cops had a terrible time with spoozers and now there's too much religion. "They keep us awake o' nights," complain the residents of the district, "with their prayers. Give us back the spoozers—they made no noise." Cops are doing their best to discourage the noisy religionists.

## THIS WILL INTEREST STOMACH SUFFERERS

Says Indigestion comes from an excess of hydrochloric acid.

A well-known authority states that stomach trouble and indigestion are nearly always due to acidity—acid stomach—and not, as most folks believe, from a lack of digestive juices. He states that an excess of hydrochloric acid in the stomach retards digestion and starts food fermentation, then our meals sour like garbage in a can, forming acid fluids and gases which inflate the stomach like a toy balloon. We then get that heavy, lumpy feeling in the chest, we eructate sour food, belch gas, or have heartburn, flatulence, water-brash or nausea.

He tells us to lay aside all digestive aids and instead, get from any pharmacy four ounces of Jad Salts and take a tablespoonful in a glass of water before breakfast while it is effervescent, and furthermore, to continue this for one week. While relief follows the first dose, it is important to neutralize the acidity, remove the gas-making mass, start the liver, stimulate the kidneys and thus promote a free flow of pure digestive juices.

Jad Salts is inexpensive and is made from the acid of grapes and lemon juice, combined with lithia and sodium phosphate. This harmless salt is used by thousands of people for stomach trouble with excellent results.
